List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration proposes to amend part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. App. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

\$ 39.13 [Amended]

2. Section 39.13 is amended by adding a new AD to read as follows:

Twin Commander Aircraft Corporation:
Docket No. 95-CE-20-AD.

Applicability: The following airplane models and serial numbers, certificated in any category.

Models	Serial No.
680T and 680V	1473 through 1720.
680W	1721 through 1850.
681	6001 through 6072.
690	11001 through 11079.
690A	11100 through 11344.
690B	11350 through 11566.
690C	11600 through 11735.
690D	15001 through 15042.
695	95000 through 95084.
695A	96000 through 96100.
695B	96201 through 96208.

Note 1: This AD applies to each airplane identified in the preceding applicability provision, regardless of whether it has been modified, altered, or repaired in the area subject to the requirements of this AD. For airplanes that have been modified, altered, or repaired so that the performance of the requirements of this AD is affected, the owner/operator must use the authority provided in paragraph (c) of this AD to request approval from the FAA. This approval may address either no action, if the current configuration eliminates the unsafe condition, or different actions necessary to address the unsafe condition described in this AD. Such a request should include an assessment of the effect of the changed

configuration on the unsafe condition addressed by this AD. In no case does the presence of any modification, alteration, or repair remove any airplane from the applicability of this AD.

Compliance: Required within the next 50 hours time-in-service after the effective date of this AD, unless already accomplished.

To prevent structural damage to the airplane caused by excessive turbulence, which could result in loss of the airplane, accomplish the following:

(a) Install the placard (to the windshield centerpost) and incorporate the airplane flight manual/pilot operating handbook (AFM/POH) revisions that are included with the kits presented below. The placard and AFM/POH revisions provide warnings to the airplane operator of the importance of observing the Turbulent Air Penetration and Maneuvering speeds:

Kit No.	Model affected
SB220-1	680T.
SB220-2	680V.
SB220-3	680W.
SB220-4	681.
SB220-5	690.
SB220-6	690A.
SB220-7	690B.
SB220-8	690C.
SB220-9	690D.
SB220-10	695.
SB220-11	695A.
SB220-12	695B.

Note 2: Twin Commander Service Bulletin No. 220, dated February 1, 1995, relates to the subject of this AD, and references the SB220 service kits specified above.

(b) Special flight permits may be issued in accordance with §§ 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate the airplane to a location where the requirements of this AD can be accomplished.

(c) An alternative method of compliance or adjustment of the compliance time that provides an equivalent level of safety may be approved by the Manager, Seattle Aircraft Certification Office (ACO), FAA, Northwest Mountain Region, 1601 Lind Avenue SW., Renton, Washington 98055-4056. The request shall be forwarded through an appropriate FAA Maintenance Inspector, who may add comments and then send it to the Manager, Seattle ACO.

Note 3: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Seattle ACO.

(d) All persons affected by this directive may obtain copies of the document referred to herein upon request to the Twin Commander Aircraft Corporation, 19010 59th Drive, NE., Arlington, Washington 98223; or may examine this document at the FAA, Central Region, Office of the Assistant Chief Counsel, Room 1558, 601 E. 12th Street, Kansas City, Missouri 64106.

Issued in Kansas City, Missouri, on April 26, 1995.

Henry A. Armstrong,

Acting Manager, Small Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-U

14 CFR Part 71

[Airspace Docket No. 95-AGL-1]

Proposed Modification of Class D Airspace and Removal of Class E Airspace, Rockford, IL

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to modify the Class D airspace area and remove the Class E2 airspace area at Greater Rockford Airport, Rockford, IL. The Rockford Air Traffic Control Tower (ATCT) is a continuous (24 Hour a day) operation. The intent of this proposal is to amend the Class D airspace area's effective hours to coincide with the associated control tower's hours of operation, by changing the Class D airspace from part-time to full-time. The Class E2 airspace was previously needed to clarify when two-way radio communication with the ATCT was required and to provide adequate Class E airspace for instrument approach procedures when the control tower is closed. The airspace is no longer needed since the ATCT is now a continuous operation; therefore, the intent is to remove the part-time Class E2 airspace.

DATES: Comments must be received on or before June 15, 1995.

ADDRESSES: Send comments on the proposal in triplicate to: Federal Aviation Administration, Office of the Assistant Chief Counsel, AGL-7, Rules Docket No. 95-AGL-1, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

The official docket may be examined in the Office of the Assistant Chief Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois. An informal docket may also be examined during normal business hours at the Air Traffic Division, System Management Branch, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois.

FOR FURTHER INFORMATION CONTACT:

Angeline Perri, Air Traffic Division, System Management Branch, AGL-530, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018, telephone (708) 294-7571.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal.

Communications should identify the airspace docket number and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made:

"Comments to Airspace Docket No. 95-AGL-1." The postcard will be date/time stamped and returned to the commenter. All communications received on or before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in light of comments received. All comments submitted will be available for examination in the Rules Docket, FAA, Great Lakes Region, Office of the Assistant Chief Counsel, 2300 East Devon Avenue, Des Plaines, Illinois, both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRMs

Any person may obtain a copy of the Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Inquiry Center, APA-230, 800 Independence Avenue, S.W., Washington, DC 20591, or by calling (202) 267-3484. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2A, which describes the application procedures.

The Proposal

The FAA is considering an amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) to modify the Class D airspace area and remove the Class E2 airspace area at

Greater Rockford Airport, Rockford, IL. The Rockford ATCT is a continuous (24 hour a day) operation. The intent of this proposal is to amend the Class D airspace area's effective hours to coincide with the associated control tower's hours of operation, by changing the Class D airspace from part-time to full-time. The Class E2 airspace was previously needed to clarify when two-way radio communication with the ATCT was required and to provide adequate Class airspace for instrument approach procedures when the control tower is closed. The airspace is no longer needed since the ATCT is now a continuous operation; therefore, the intent is to remove the part-time Class E2 airspace. Aeronautical maps and charts would reflect the defined area which would enable pilots to circumnavigate the area or otherwise comply with IFR procedures. Class D and E airspace designations are published in Paragraphs 5000 and 6002, respectively, of FAA Order 7400.9B dated July 18, 1994, and effective September 16, 1994, which is incorporated by reference in 14 CFR 71.1. The Class D and E airspace designations listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) as follows:

PART 71—[Amended]

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 1348(a), 1354(a), 1510; E.O. 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389; 49 U.S.C. 106(g); 14 CFR 11.69.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9B, Airspace Designations and Reporting Points, dated July 18, 1994, and effective September 16, 1994, is amended as follows:

Paragraph 5000 General

* * * * *

AGL IL D Rockford, IL [Revised]

Rockford, Greater Rockford Airport, IL
(Lat. 42°11'46"N, long. 89°05'38"W)
Greater Rockford ILS Localizer
(Lat. 42°12'36"N, long. 89°05'17"W)
GILMY LOM

(Lat. 42°06'52"N, long. 89°05'55"W)

That airspace extending upward from the surface to and including 3,200 feet MSL within a 4.4-mile radius of the Greater Rockford Airport and within 1.8 miles each side of the Greater Rockford Runway 36 ILS localizer course, extending south from the 4.4-mile radius to the GILMY LOM.

* * * * *

Paragraph 6002 Class E Airspace Areas Designated as a Surface Area for an Airport

* * * * *

AGL IL E2 Rockford, IL [Removed]

* * * * *

Issued in Des Plaines, Illinois on April 17, 1995.

Roger Wall,

Manager, Air Traffic Division.
